General Fund	27 - 28
Major Street Fund	29
Local Street Fund	30
Fire Reserve Fund	31
Capital Improvement Fund	32
OTHER SUPPLEMENTARY DATA	
Schedule of bond retirement and annual interest requirements	33

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

Our discussion and analysis of the City of Plainwell's (the City) financial performance provides a narrative overview of the City's financial activities for the fiscal year ended June 30, 2006. Please read it in conjunction with the City's financial statements.

### **FINANCIAL HIGHLIGHTS**

- The City's total net assets decreased by \$20,589 as a result of this year's activities. Net assets of the governmental activities increased by \$44,492, and net assets of the business-type activities decreased by \$65,081.
- Of the \$10,358,662 total net assets reported, \$2,602,670 (25 percent) is available to be used to meet the City's ongoing obligations to its citizens and customers.
- The General Fund's unreserved fund balance at the end of the fiscal year was \$842,035, which represents 46 percent of the actual total General Fund expenditures for the current fiscal year.

### Overview of the financial statements

The City's basic financial statements are comprised of four parts: management's discussion and analysis, the basic financial statements, required supplementary information, and an optional section that presents combining statements for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the City:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the City, reporting the City's operations in more detail than the government-wide financial statements.
  - o Governmental fund statements tell how general government services, like public safety, were financed in the short-term as well as what remains for future spending.
  - o Proprietary fund statements offer short- and long-term financial information about the activities the government operates like a business, such as the sewer and water systems.
  - Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The financial statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

#### Government-wide financial statements

The government-wide financial statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the City's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two government-wide statements report the City's net assets and how they have changed. Net assets (the difference between the City's assets and liabilities) is one way to measure the City's financial health, or position.

- Over time, increases or decreases in the City's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City, you need to consider additional nonfinancial factors such as changes in the City's property tax base and the condition of the City's capital assets.

The government-wide financial statements are divided into three categories:

- Governmental activities Most of the City's basic services are included here, such as police and fire
  protection and general government. Property taxes and state grants finance most of these
  activities.
- Business-type activities The City charges fees to customers to help it cover the costs of certain services it provides. The City's sewer and water systems and airport operations are reported here.
- Component units The City includes other entities in its report the Plainwell Tax Increment Finance Authority and the Brownfield Redevelopment Authority. Although legally separate, these "component units" are important because the City is financially accountable for them.

### **Fund financial statements**

The fund financial statements provide more detailed information about the City's most significant funds - not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by state law and by bond agreements.
- The City Council establishes other funds to control and manage money for particular purposes (like the Fire Reserve and Capital Improvement funds) or to show that it is properly using certain taxes and other revenues (like property taxes collected for solid waste and motor fuel taxes collected for the street funds).

### The City has three kinds of funds:

1. Governmental funds. Most of the City's basic services are included in governmental funds, which focus on (1) how cash, and other financial assets that can be readily converted to cash, flow in and out and, (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statements that explain the relationship between them.

- 2. Proprietary funds. Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-and short-term financial information.
  - In fact, the City's enterprise funds (one type of proprietary fund) are the same as its business-type activities, but provide more detail and additional information, such as cash flows.
  - The City uses an internal service fund (the other type of proprietary fund) to report activities
    that provide services for the City's other programs and activities. The City's internal service
    fund is its Equipment Fund that manages the City's fleet of vehicles and equipment.
- 3. Fiduciary funds. These funds are used to account for the collection and disbursement of resources, primarily taxes, for the benefit of parties outside the government. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The City's fiduciary activities are reported in a separate statement of fiduciary net assets. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

### FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

**Net assets.** Total net assets at the end of the fiscal year were \$10,358,662, a decrease compared to the prior year. Of this total, \$7,358,095 is invested in capital assets and \$553,712 is restricted for various purposes. Consequently, unrestricted net assets were \$2,446,855, or 25 percent of the total.

### Condensed financial information Net assets

		Governmental activities		ss-type vities	Totals		
	2006	2005	2006	2005	2006	2005	
Current and other assets Capital assets	\$ 2,644,793 1,803,687	\$ 2,519,725 1,855,050	\$ 212,001 7,064,408	\$ 685,455 6,802,066	\$ 2,856,794 8,868,095	\$ 3,205,180 8,657,116

Total liabilities	200,100	170,887	1,166,127	1,315,158	1,366,227	1,486,045	
Net assets: Invested in capital assets,	4 000 007	4 055 555					
net of related debt Restricted	1,803,687	1,855,050	5,554,408	5,632,066	7,358,095	7,487,116	
Unrestricted	553,712 1,890,981	477,895 1,870,943	555,874	543,297	553,712 2,446,855	477,895 2,414,240	
Total net assets	<b>\$ 4,248,380</b>	\$ 4,203,888	<u>\$ 6,110,282</u>	\$ 6,175,363	\$ 10,358,662	\$ 10,379,251	

**Changes in net assets.** The City's total revenues were \$3,957,961. Approximately 34 percent of the City's revenues come from property taxes and another 35 percent come from utility charges.

The total cost of all the City's programs, covering a wide range of services, totaled \$3,978,550. Approximately 35 percent of the City's costs relate to the provision of utility services. Public safety costs account for 28 percent of the costs and public works costs account for 17 percent of the City's total costs.

Increase (decrease) in net assets	<b>\$ 44,492</b>	<u>\$ 153,069</u>	<u>\$ (65,081)</u>	\$ 7,918	<u>\$ (20,589)</u>	<u>\$ 160,987</u>

**Governmental activities.** Governmental activities increased the City's net assets by \$44,492. The key elements of this increase include:

- Strict adherence to spending limitations that limited the increase in expenses to 3%
- Higher interest rates yielded an additional \$35,000 in interest income

### MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

### Governmental activities (continued).

The cost of all governmental activities this year was \$2,591,429. After subtracting the direct charges to those who directly benefited from the programs (\$159,060), and operating and capital grants and contributions (\$411,133), the "public benefit" portion covered by taxes, state revenue sharing, and other general revenues was \$2,021,236.

General revenues, in the amount of \$2,065,728 exceeded the net cost of providing governmental services by \$44,492 causing the net assets to increase. The increase is principally explained by a strict adherence to spending limitations.

**Business-type activities.** Business-type activities decreased the City's net assets by \$65,081. The decrease can be explained by higher gas prices related to both heating and vehicular fuel.

### FINANCIAL ANALYSIS OF THE CITY'S FUNDS

**Governmental funds.** As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$2,326,145, an increase of \$228,537 in comparison with the prior year. Of the total fund balances, \$12,701 is reserved for public safety expenditures. The remainder of the fund balances are unreserved and, therefore, available for spending at the Council's discretion. A portion of the City's governmental fund balances, in the amount of \$483,266, has been designated for future capital purchases.

The General Fund is the chief operating fund of the City. At the end of the fiscal year, unreserved fund balance was \$842,035, which represents 46 percent of the actual total General Fund expenditures for the current fiscal year. The fund balance increased by \$37,757 during the fiscal year primarily due to the sale of property and a larger than expected return on investments.

The Major Street Fund experienced an increase in fund balance of \$77,304 during the fiscal year because the fund did not incur construction costs in the current year.

The Local Street Fund experienced an increase in fund balance of \$49,260 during the fiscal year primarily due to a \$40,000 transfer from the Major Street Fund.

The Fire Reserve Fund experienced an increase in fund balance of \$99,323 because property taxes and other revenues were not used to acquire capital assets in the current year.

The Capital Improvement Fund experienced a decrease in fund balance of \$41,544 during the fiscal year primarily due to a \$126,000 transfer to the Brownfield Redevelopment Authority to finance consulting costs related to the redevelopment of property formerly owned by Plainwell Paper.

### Proprietary funds.

The Sewer Fund experienced a decrease in net assets of \$55,666. The decrease was due to the fact that charges for services were insufficient to cover the full cost of operations. Capital acquisitions during the fiscal year totaled \$687,104.

The Water Fund experienced an increase in net assets of \$18,197. The increase was due to the fact that increased water rates enabled revenues to be sufficient to cover the full cost of operations.

### General Fund budgetary highlights

Budgeted expenditures were increased by \$59,172 during the year to reflect anticipated cost increases. The difference between the actual and budgeted amounts (\$67,683) can be attributed to decisions to limit expenditures throughout the year.

### Capital assets and debt administration

### Capital assets:

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2006, amounts to \$8,868,095 (net of accumulated depreciation). This investment includes a broad range of assets including land, buildings, police and fire equipment, and sewer and water facilities. The increase in the City's net investment in capital assets for the current fiscal year was \$210,979. The net investment in capital assets was decreased \$51,363 by governmental activities and increased \$262,342 by business-type activities.

		vernmental activities		siness-type activities	Totals
Infrastructure Buildings and improvements Equipment Land		689,133 379,924 398,660 335,970	\$	7,016,212 - - - 48,196	\$7,705,345 379,924 398,660 384,166
Totals	<u>\$</u>	1,803,687	<u>\$</u>	7,064,408	\$8,868,095

Major capital asset events during the current fiscal year included the following:

- The Sewer Fund incurred costs, in the amount of \$687,104, related to the digester improvement project.
- The City acquired land for \$35,389.
- The internal service fund acquired equipment, including a police vehicle, totaling \$33,070.

More detailed information about the City's capital assets is presented in Note 5 of the notes to the basic financial statements.

### Long-term debt:

At the end of the fiscal year, the City had bonds payable outstanding in the amount of \$1,105,000 which represents a decrease of \$65,000 or 6 percent. These bonds are secured solely by specific revenue sources (i.e., revenue bonds) of the Water Fund.

Other long-term debt obligations, of the governmental activities, totaling \$128,282 represent accrued compensated absences.

More detailed information about the City's long-term liabilities is presented in Note 8 of the notes to the basic financial statements.

# City of Plainwell MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

### **Economic condition and outlook**

The City anticipates minimal increases in its significant sources of revenue – property taxes and state shared revenue. The City has long term projects which could significantly increase property tax revenue; however, this will not be realized in the upcoming year.

Like many communities across Michigan, Plainwell will adhere to strict spending limitations.

### Contacting the City's financial management

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the resources it receives. Questions regarding any information provided in this report or requests for additional financial information should be addressed to:

Erik Wilson, City Manager Karen Koehn, City Treasurer/Finance Director 141 North Main Street Plainwell, Michigan 49080 Phone: (269) 685-6821

246 E. Kilgore Road Kalamazoo, MI 49002-5599 www.siegfriedcrandall.com

#### INDEPENDENT AUDITORS' REPORT

City Council City of Plainwell, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely-presented component units, each major fund, and the aggregate remaining fund information of the City of Plainwell, Michigan, as of June 30, 2006, and for the year then ended, which collectively comprise the City of Plainwell, Michigan's basic financial statements, as listed in the contents. These financial statements are the responsibility of the City of Plainwell, Michigan's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely-presented component units, each major fund, and the aggregate remaining fund information of the City of Plainwell, Michigan, as of June 30, 2006, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

The management's discussion and analysis and budgetary comparison information are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

City Council City of Plainwell, Michigan Page 2

Our audit was made for the purpose of forming opinions on the financial statements that collectively comprise the City of Plainwell, Michigan's basic financial statements. The supplementary information, as listed in the contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements of the City of Plainwell, Michigan. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Sigfied Crondell P.C.

Total fund balances - total governmental funds

Amounts reported for governmental activities in the statement of net assets (page 5) are different because:

Capital assets used in *governmental activities* are not financial resources and, therefore, are not reported in the funds.

Some liabilities are not due and payable in the current period, and therefore, are not reported in the funds.

The assets and liabilities of the internal service fund are included in the *governmental* activities in the statement of net assets.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The accounting policies of the City of Plainwell, Michigan (the City), conform to U.S. generally accepted accounting principles (hereinafter referred to as generally accepted accounting principles) as applicable to governments. The following is a summary of the more significant policies.

### a) Reporting entity:

The accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable. The component units are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the City.

### Discretely-presented component units:

Tax Increment Financing Authority and Brownfield Redevelopment Authority:

These units are presented in separate columns in the financial statements to emphasize that they are legally separate from the City. Separate financial statements of the component units have not been issued, as management believes these financial statements, including disclosures, contain complete information so as to constitute a fair presentation of the component units. Each component unit's governing body is appointed by the City Council and their budget must be approved by the City Council.

### b) Government-wide and fund financial statements:

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the City. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

### c) Measurement focus, basis of accounting, and financial statement presentation:

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

c) Measurement focus, basis of accounting, and financial statement presentation (continued):
Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City generally considers revenues to be available if they are expected to be collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

State grants, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when cash is received by the government.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund. Revenues are primarily derived from property taxes and state shared revenue.

The Major Street Fund accounts for state gas and weight tax revenues that are restricted for expenditures related to maintaining and improving the City's major streets.

The Local Street Fund accounts for state gas and weight tax revenues that are restricted for expenditures related to maintaining and improving the City's local streets.

The Fire Reserve Fund accounts for property taxes allocated from the general operating millage that are to be used for acquisitions of fire protection equipment.

The Capital Improvement Fund accounts for property taxes allocated from the general operating millage that the City Council has designated for future capital improvements.

The City reports the following major enterprise funds:

The Sewer Fund accounts for the activities of the City's sewage collection systems and treatment plant.

The Water Fund accounts for the activities of the City's water distribution system.

Additionally, the City reports an internal service fund that accounts for vehicle and equipment management services provided to other departments of the City on a cost-reimbursement basis.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector standards.

c) Measurement focus, basis of accounting, and financial statement presentation (continued):
Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds relate to charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

- d) Assets, liabilities, and net assets or equity:
  - i) Bank deposits Cash is considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Pooled interest income is allocated proportionately to all funds.
  - *ii)* Receivables In general, outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances." No allowance for uncollectible accounts has been recorded as the City considers all receivables to be fully collectible.
  - iii) Prepaid items Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in the government-wide financial statements.
  - iv) Capital assets Capital assets, which include property, equipment, and infrastructure assets (e.g., streets and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The City has elected to use the prospective method of accounting for infrastructure assets whereby it will capitalize its infrastructure assets beginning July 1, 2003, as permitted by GASB No. 34.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

d) Assets, liabilities, and net assets or equity (continued):

iv) Capital assets (continued) - Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements 10 - 50 years

Equipment 3 - 25

3 - 25 years

Vehicles

4 - 20 years

Sewer and water systems

50 years

- v) Compensated absences (vacation and sick leave) It is the City's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. A liability for unpaid accumulated vacation and sick leave has been recorded for the portion due to employees upon separation from service with the City. Vested compensated absences are accrued when earned in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year-end.
- vi) Fund equity In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

### vii) Property tax revenue recognition:

Property taxes are levied as of July 1 on property values assessed as of December 31 of the prior year. The billings are due on or before August 15, after which time the bill becomes delinquent and penalties and interest may be assessed by the City. Property tax revenue is recognized in the year for which taxes have been levied and become available. The City levy date is July 1, and, accordingly, the total levy is recognized as revenue in the current year.

### NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:

Budgetary information - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. The budget document presents information by fund, function, department, and line-item. The legal level of budgetary control adopted by the governing body is the functional level. All annual appropriations lapse at the end of the fiscal year. The City experienced no significant budget variances during the fiscal year.

Fund deficit - As of June 30, 2006, the City's Sewer Fund, an enterprise fund, has an accumulated unrestricted net asset deficit, in the amount of \$376,165, that arose from financing a capital project through an interfund loan from the Capital Improvement Fund. The Sewer Fund is expected to repay the loan over the next three years.

#### NOTE 3 - CASH:

Cash, as presented in the accompanying financial statements, consists of the following:

	Govern- mental activities	Business- type activities	Fiduciary	Total primary government	Total component units	Total
Deposits Cash on hand	\$ 1,999,350 1,000	\$ 529,483 	\$ 35,616	\$ 2,564,449 1,000	\$ 205,125	\$ 2,769,574 1,000
Totals	\$ 2,000,350	\$ 529,483	\$ 35,616	\$ 2,565,449	\$ 205,125	\$ 2,770,574

Deposits with financial institutions - State statutes and the City's investment policy authorize the City to make deposits in the accounts of federally-insured banks, credit unions, and savings and loan associations that have an office in Michigan. The City's deposits are in accordance with statutory authority.

Custodial credit risk is the risk that, in the event of the failure of a financial institution, the City will not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and are uncollateralized. As of June 30, 2006, \$2,582,511 of the City's bank balances of \$2,809,750 was exposed to custodial credit risk because it was uninsured. The City believes that it is impractical to insure all bank deposits due to the amounts of the deposits and the limits of FDIC insurance. As a result, the City evaluates each financial institution with which it deposits funds and assesses the risk level of each institution. Only the institutions with an acceptable estimated risk level are used as depositories.

The City maintains individual and pooled cash accounts for all of its funds and its component units. Due to use of pooled deposits, it is not practicable to allocate insured and uninsured portions of certain bank balances between the primary government and its component units. The insured portion of the bank balance has been allocated entirely to the primary government.

## NOTE 4 - RECEIVABLES:

At June 30, 2006, the City's receivables are as follows:

Fund	<u>A</u>	ccounts	gov	Inter- ernmental		Totals		
Governmental funds:								
General	\$	29,628	\$	146,126	\$	175,754

Component units:								
Brownfield Redevelopment Authority	\$	5,141	\$		\$	_	<u>\$</u>	5,141

### NOTE 7 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS:

At June 30, 2006, the composition of interfund balances follows:

Fund	Receivable		Fund		Payable	
Capital Improvement	\$	405,000	Sewer	9	\$	405,000

The Capital Improvement Fund provided an interfund loan to the Sewer Fund to finance a portion of the cost of the digester project in the current year. The loan is to be repaid over a period of three years.

## NOTE 7 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS (Continued):

A summary of interfund transfers for the year ended June 30, 2006, are as follows:

Fund	Transfers in		Fund	Trar	Transfers out		
General	\$	73,977	Major Street	\$	5,678		
			Local Street		4,888		
			Nonmajor governmental		4,208		
			Sewer		40,209		
			Water		10,683		
			Nonmajor business-type		2,222		
			Internal service		6,089		
					73,977		
General		4,945	Fire Reserve		4,945		
		78,922			78,922		
Local Street		40,000	Major Street		40,000		
	\$	118,922		<u>\$</u>	118,922		

The transfers to the General Fund, in the amount of \$73,977, represent payments to the General Fund in accordance with budgetary authorizations.

The Fire Reserve Fund transferred \$4,945 to the General Fund to finance a portion of the costs of fire protection.

The Major Street Fund, in compliance with state statues, transferred \$40,000 of available funds to the Local Street Fund, which represents support for additional street maintenance and repairs.

### **NOTE 8 - NONCURRENT LIABILITIES:**

At June 30, 2006, noncurrent liabilities are comprised of the following individual issues:

Governmental activities:

Accrued employee benefits

\$ 128,282

Business-type activities:

Bonds payable:

\$1,570,000 1999 Water Supply System revenue bonds - payable in annual installments ranging from \$65,000 to \$90,000, plus interest at 2.50%; final payment due October 2019

\$1,105,000

Noncurrent liability activity for the year ended June 30, 2006, was as follows:

		ginning alance	Additions		Reductions		Ending balance		Amounts due within one year	
Governmental activities: Compensated absences	\$	76,488	<u>\$</u>	141,703	<u>\$</u>	89,909	\$	128,282	\$	-
Business-type activities: 1999 Revenue bonds	<u>\$ 1</u>	,170,000	<u>\$</u>	<u>-</u>	\$	65,000	\$ 1	I <u>,105,000</u>	\$	65,000

At June 30, 2006, debt service requirements, with the exception of compensated absences, are as follows:

	!	Business-type activities					
		Principal Intere					
Year ended June 30:							
2007	\$	65,000	\$	26,812			
2008		70,000		25,125			
2009		70,000		23,375			
2010		70,000		21,625			
2011		75,000		19,813			
2012 - 2016		400,000		69,875			
2017 - 2020		355,000		17,937			
•							
	\$	1,105,000	\$	204,562			

## NOTE 9 - COMPONENT UNIT TRANSACTIONS:

The Capital Improvement Fund paid the Brownfield Redevelopment Authority \$126,000 to finance consulting costs related to the redevelopment of the Plainwell Paper property.

The Tax Increment Finance Authority paid the General Fund \$25,000 to finance a portion of the City's economic development costs.

#### NOTE 10 - RETIREMENT PLAN:

The City provides pension benefits for all of its full-time employees through a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan, plus investment earnings. Employees are eligible to participate from the date of employment. The City contributes 10% of each qualified employee's base salary to the plan. The City's contributions are fully vested immediately. The City is not a trustee of the plan, nor is the City responsible for investment management of plan assets.

The City and employees made the required contributions of \$144,793 and \$139,038, respectively.

### NOTE 11 - CONSTRUCTION CODE ACT:

A summary of construction code enforcement transactions for the year ended June 30, 2006, is as follows:

 Revenues
 \$ 16,108

 Expenses
 15,216

Excess of revenues over expenses \$ 892

#### NOTE 12 - RISK MANAGEMENT:

The City is exposed to various risks of loss to general liability, property and casualty, workers' compensation, and employee health and medical claims. The risks of loss arising from general liability up to \$3,000,000, building contents, workers' compensation, employee medical, and casualty are managed through purchased commercial insurance. For all risks of loss, there have been no significant reductions in insurance coverage from coverage provided in prior years. Also, in the past three years, settlements did not exceed insurance coverage.

### **NOTE 13 - CONTINGENCY:**

The Tax Increment Finance Authority, a component unit of the City, has adopted a tax increment financing plan (the plan) that allows the Authority (the Authority) to expend tax increment revenues for purposes of furthering the development program contemplated in the plan. At June 30, 2006, the Authority's fund balance was \$199,467. The Authority intends to use the available fund balance to complete the development program. However, any funds remaining after completion of the development program shall revert proportionately to the respective taxing entities, including the City, from which the tax increment revenues were derived.
